DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 30-51, 53, and 54 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 30 recites in line 4 “a plurality of optical fibers” adapted to conduct light to or from the treatment light. The claim further recites the limitation “wherein the optical fiber is in use employed as a transmitter or a receiver” in lines 5-6. It is not clear from the claim language whether a single optical fiber from the plurality of the optical fibers to transmit and receive the light.

The examiner suggests a correction such as --“wherein the optical fibers when in use are employed as transmitters or receivers--.

Appropriate correction is required.

Allowable Subject Matter

Claims 30-51, 53, and 54 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
